ABOUT ME

I am intrigued by user interfaces, graphic designs and programming and all platforms where these are applied, which include website ,mobile applications, flyer designs and many more.

I enjoy challenges and I'm always open to opportunities to expand and develop my skill set.

I am always ready to work effectively in a team or alone, freelance or full time.

OBJECTIVE

I am seeking a position within a tech organization or a design firm as web developer, UI/UX design or graphic designer.

My objective is to create better interfaces, experiences and development technology which would be easier and better for the user and in turn benefit the organization.
